👤 PROFILE

I am a self-taught front-end developer.

I am mostly focused on front-end : JavaScript, HTML5, CSS3, Bootstrap, Tailwindcss.

I also know the basics of PHP, MySQL, Python3, React, Git, and manipulating databases in phpMyAdmin.

I offer strong self-learning ability, discipline, commitment, and the willingness to adapt to whatever your project requires.
On my portfolio site, you will find examples of my work, highlighting my skills (https://orguitar1.github.io/Orlando-Leija/), and you can check out my GitHub for more! (https://github.com/orguitar1).
I love learning new technologies and collaborating with people!
I can't wait to learn and get proficient in whatever language or framework your project needs and provide value to you wherever I can!
I welcome the opportunity to speak to you if you feel like I would be a strong candidate for any position in your organization!

💼 EMPLOYMENT HISTORY

Freelance web designer at self-employed, San Luis Potosí
November 2021 — April 2022

I've been learning to code for over a year now, and I have been working with clients to adapt to their needs. I have built a few websites you can check out over at my portfolio site! (https://orguitar1.github.io/Orlando-Leija/)

I've mainly been learning about JavaScript, HTML5, CSS3, Tailwindcss and Bootstrap. Also, the basics of C, PHP7, Python3, MySQL, React, Git and phpMyAdmin.

Satellite internet tech support agent at Teleperformance, San Luis Potosí
March 2021 — April 2022

I've been working as a tech support agent for Hughesnet Satellite Internet through Teleperformance for over a year.

Dealing with tons of clients from different countries every day and helping them resolve their internet performance issues. It's challenging but fun!

Musician at Holland America Line, Seattle, Washington
February 2017 — August 2020

Professional musician (guitarist) performing on cruise ships for Holland America Line, in a variety of different music styles, and with many different bands and artists.

100% English-speaking working environment.
